Trust & Credibility: Key Concepts

Trust:

Belief that others will act reliably and honestly based on past behavior.

Credibility:

Quality of being believable and worthy of confidence based on expertise

Elements of Trust Building

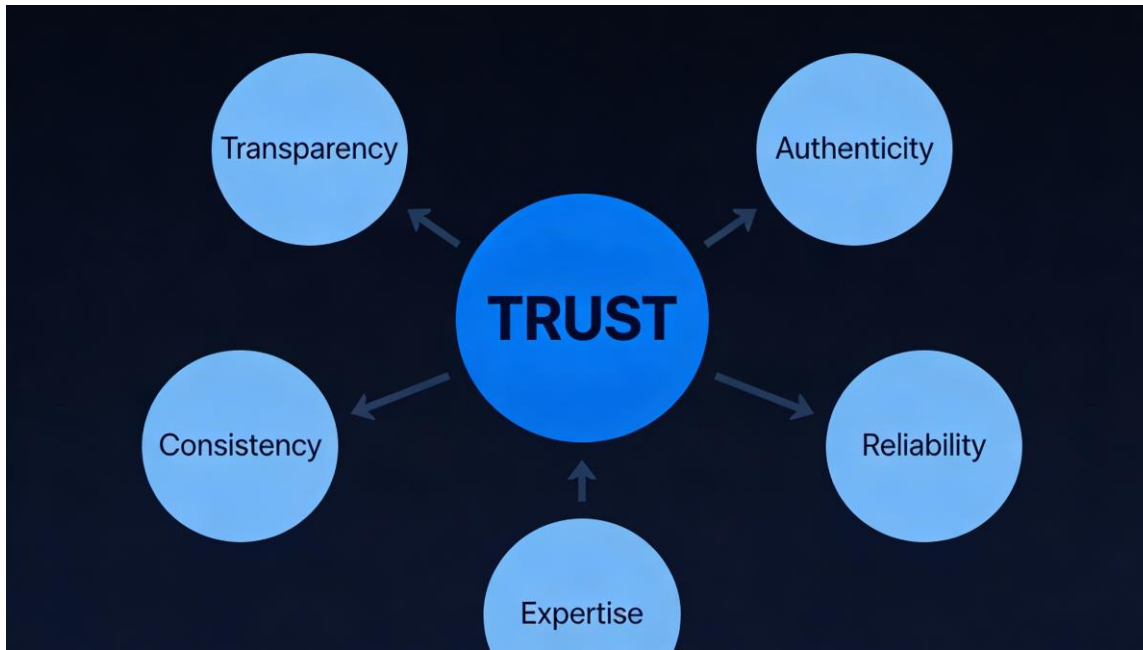

Fig- 1.1 Elements of Trust Building

What Are Reputation Systems?

1. Systems that collect and display information about user behavior based on past interactions
 - **Rating Systems** - Star ratings on e-commerce and reviews
 - **Feedback Systems** - User comments and testimonials
 - **Badge/Level Systems** - Earned credentials showing expertise

How Reputation Systems Work

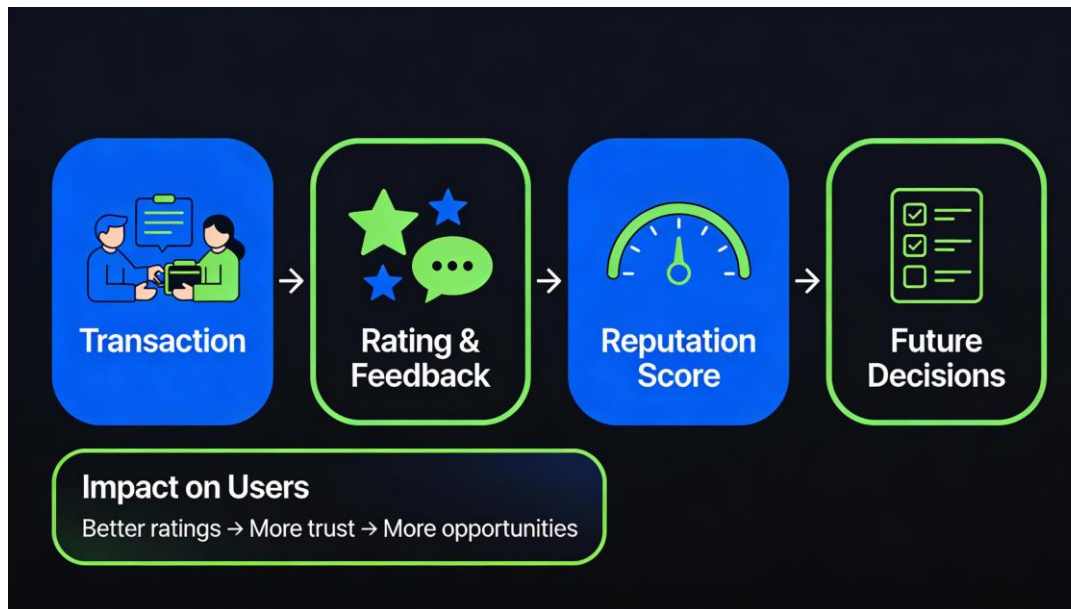

Fig- 1.2 How Reputation System Work

Reputation Systems Impact

Positive Effects

- Reduces information gaps
- Encourages good behavior
- Increases platform trust

Challenges

- Possible discrimination
